

**English –**

Over the next few days, we would like you to plan a retell of the story you have been looking at. This means planning what you will write and how you will break the story up. We do this to make it easier when we come to write the story out in our own words. (If you are not able to write out the story, please don't worry! You will have the option of retelling it verbally and asking an adult to record it.)

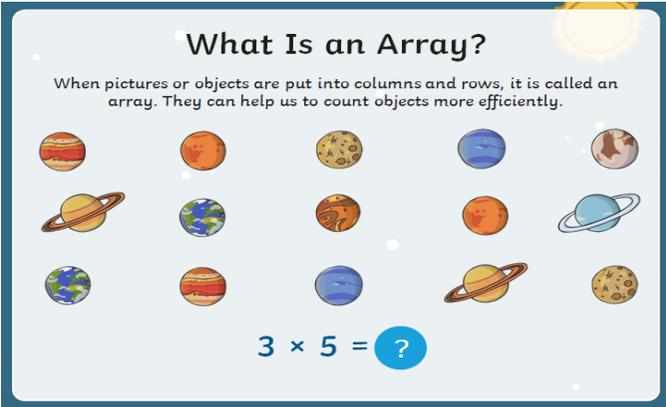

To help you plan your rewrite, we have provided three sheets. These are all on the same document so you may need to scroll down to find the one that is appropriate for you. Choose **one** sheet to do to help you get ready to write your story.

Try and include:

- Time conjunctions (once, next, after that...)
- Adjectives (describing words for the character and setting)
- The best vocabulary choices you can (big or enormous?!)

**Maths -**

In maths, we would like you to make some **arrays** using real objects that you can find around your home. Arrays are a way of recording multiplication. When you place objects in columns and rows, you can see how many groups there are and how many objects are in each group. You can write this as a number sentence and find the total. [ - x - = - ]

Twinkl has a PowerPoint which is a good introduction to arrays.  
<https://www.twinkl.co.uk/resource/t-n-4976-amazing-arrays-powerpoint>

This video can be very helpful <https://www.youtube.com/watch?v=AN3T8KbJ678> but please note than in England we record the 'groups of' part of the number sentence second.

This video shows how we record and work out the number sentence in England

**Theme -**

Now you have had some practice with looking at maps and using a compass to locate different continents, we would like you to locate the 5 oceans on a map. What are they called? What wildlife lives in these oceans? Are they all the same or different? Why? You could make a fact file or poster telling us all about them. We would love to see them on the John Rankin Facebook page!

Twinkl offered parents a free month of membership at the start of lockdown. If you haven't access this yet then please find the information in the first link. We have also included some other links with resources that you can use if needed.
