

Many of our English and Maths homework tasks will be set using IXL links. Every child has their own IXL account so that progress and achievements can be monitored and learning personalised.

Below are instructions for accessing IXL accounts.

1. Log into RM Unify and click the IXL tile before going into your Google Classroom tile.
2. Use your login details to sign into your personal IXL page.
3. Go back to your RM Unify launch pad and click on your Google Classroom tile.
4. When you click on the IXL link attached to the homework, you will automatically be logged in and be able to work through the skill on your personal IXL page without logging in again.
5. When finished, close the IXL window and return to your Google Classroom so you can click on 'Mark as done' and leave any comments / attach documents if appropriate.
